## CashLINK<sup>SM</sup>

## Cash Logistics

Cash is a distraction for your business. The more time you spend securing it, counting it, reconciling it and getting it to your bank account, the less time you have to serve your customers.

You need an efficient solution, and that's what Garda's CashLINK is all about.

CashLINK is a single-source, fully integrated, transaction-to-bank cash management system.

The Garda solution starts when your employee deposits cash into our autosafe, which reads and secures each note, and ends when you view your bank deposit and key financial information on your computer.

**The smart  
answer for  
fully integrated  
cash  
management**

HERE'S HOW IT WORKS: Your employees frequently deposit cash and checks directly into Garda's electronic safe, which immediately secures the deposit and records the data. At that point, you have the reconciliation information you need to report, by day, by cashier or by your overall store.

Each day Garda collects that deposit data and uploads it to your headquarters for sales audit and banking reconciliation.

Our well-trained messengers will pick up your money at your store on a schedule that suits your needs. Cash is removed from the electronic safe under the supervision and dual custody of your management and our messenger.

In our totally secure cash vault, our staff will count your cash, deposit it at your bank, and electronically transmit the information about your deposit itemized by store and business day.

### CASHLINK BENEFITS

Whether you are a customer, cashier, manager, loss prevention officer, accountant or executive, everyone benefits from CashLINK.

YOUR CUSTOMERS appreciate the higher level of service they receive in your store.

YOUR ASSOCIATES feel greater security and reduced stress when they don't have to worry about cash.

YOUR LOSS PREVENTION STAFF will appreciate the higher level of security and reduced risk of theft that comes from our closed-loop system.

YOUR ACCOUNTING DEPARTMENT applauds the way CashLINK speeds account reconciliation and simplifies banking relationships.

YOUR EXECUTIVE GROUP will love how quickly CashLINK service more than pays for itself.

- ∴ Coin Wrap Services
- ∴ Deposit Reconciliation
- ∴ Money Manager

### OTHER CASH LOGISTICS PRODUCTS:

- ∴ CashLINK
- ∴ EvenXchange
- ∴ Retail Direct

### FOUR REASONS TO CHOOSE CASHLINK FOR YOUR COMPANY

**PLATFORM OPTIONS.** With CashLINK, you can custom configure the most cost efficient type of hardware for each store's individual design, operating hours and cash flow. That saves you time, money and installation hassles.

**MAXIMUM PRODUCTIVITY.** CashLINK's use of the latest MARS bill reader technology virtually eliminates errors and provides counterfeit protection. Cashiers easily use the autosafes as part of a seamless transaction. That significantly reduces your risk of cash loss.

**ELECTRONIC REPORTING.** CashLINK electronically reports each store's cash receipts every business day. Your accounting staff is equipped with the information they need to easily reconcile bank deposits by individual store by business day.

**IMPROVED PROFITABILITY.** As a single-source cash management system, CashLINK eliminates the unproductive use of valuable labor, prevents inaccurate and untimely reporting to headquarters, and reduces employee stress and turnover.

# GARDA

Garda, the second largest cash logistics company in North America, provides comprehensive cash management services, including armored transportation, cash vault processing, ATM services, CashLINK™ cash management and EvenXchange™ change order services for banking and retail customers. We help our customers, predominantly financial institutions and multi-unit retailers operating cash-intensive businesses manage and grow their businesses. We use innovative technology and logistical expertise to securely and efficiently move and manage cash and other valuables so our customers enjoy greater productivity and profitability.
